A New Idol
American Idol Changes
By Ashley Remington

A new season of the famous show "American Idol" will premier on January 19, 2011, and with some major changes. With the departure of Simon Cowell, Grammy award-winning singer and songwriter Jennifer Lopez, and Rock and Roll Hall of Fame inductee Steven Tyler (Aerosmith), have joined American Idol as judges. In addition to the new judges, there are some other changes as well such as the audition age being lowered to 15, and all of the contestants will be living together. The show's new changes are to hopefully bring up its rates and reputation, because the producers aren't sure how it is going to go without Simon and his brutal criticisms. Be sure to watch the premiere on the 19th to judge for yourself if the new changes are any good!

Fun Facts!
Facts that might give your life a little flavor!
By Aimee Drath

Did you know that 50,000 of your cells will die and be replaced with new cells, all while you have been reading this sentence? This month for the Wolf Talk we decided to put some fun facts as entertainment. These facts are interesting and a little strange, but how many of them do you think you know? Did you know our bodies are recreating themselves constantly?

- ⌘ We make a new skeleton every three months.
- ⌘ Your skin is new every five weeks.
- ⌘ The skin's cells multiply every second to replace those worn away.
- ⌘ A typical skin cell lives only two weeks.
- ⌘ A typical cell in the lining of your stomach lives only a few days.
- ⌘ Heart and brain cells apparently last a lifetime without reproducing.
- ⌘ The tooth is the only part of the human body that can't repair itself.
- ⌘ Your body has approximately 14 billion nerve cells and over 100 trillion other cells that provide communication among and between all parts of the body.
- ⌘ The liver is often called the body's chemical factory. Scientists have counted over 500 different liver functions.
- ⌘ One human brain generates more electrical impulses in a single day than all of the world's telephones put together.

How many of the facts did you know? I thought some of them were interesting and fun to know. Now you have a greater knowledge of facts about your very own body. If you would like to learn more fun facts go to http://www.berro.com/entertainment/general_interesting_facts.htm.

How are You Doing? How to Keep New Year's Resolutions

By Miranda Moede

Planning on spending more time with your family, or maybe dropping a few pounds, New Year's Resolutions could be about anything. But how do you plan on achieving and keeping it? About 50% of people made a New Year's Resolution in the US this year, but only 19% of them will keep it! This is how you can keep your New Year's Resolution if you made one:

First of all, make it realistic. If it is something crazy and will take a long time to achieve, then you will be less likely to stick with it. Try breaking it down into smaller goals to start with. The more precise these little goals are the easier they will be to do. For example, if your resolution was to lose 30 pounds, maybe you could make a smaller goal of losing 5 pounds by St. Patrick's Day. That way you have a date set and a smaller goal that will help you reach your big one. Write your goals down and put them in a place where you will see them everyday- this will help motivate you! You should also keep track of your progress somewhere like your calendar or a notebook. If you still are having trouble, another thing to try is telling as many people about what you are trying to do as you can. This helps by keeping you committed to your goal because you know people are going to expect to see it happen. Also, make sure you reward yourself often on little achievements. This makes you feel like your doing a good job and little successes are better than no success at all! Lastly, you need to remain flexible. Your New Year's Resolution can and will change. If you are prepared for this then you will be less likely to quit trying and can still work at it.

So start telling people the goals you've made for the New Year! Hopefully these tips help out and you can make it. Good luck! 😊

Rumors and More Rumors

Movie Review

By Caryn Frazier

Hysterical, rumor-filled, and cheerful are just a few words to describe the movie Easy A. This movie recently came out on DVD and tons of people are talking about it. The movie does a pretty good job of portraying what high school life is like, and how one rumor can spread faster than you can say your name. The movie stars Emma Stone and how one rumor affects her life, and also tears her friendship apart with her best friend, as well as improves her financial standing. The rumor spreads from telling her best friend in the bathroom, and another girl overhears it, which happens to be Amanda Bynes. Throughout the movie she keeps a video of what not to do during high school, and how her world got turned upside down. In the end, she's able to clear the air with a video that the whole student body sees, explaining to them that the rumor isn't true, and she made it all up. Even better yet, she is able to get the guy in the end, Penn Badgley. I would recommend this movie to anyone who wants a good laugh with some friends on a Saturday night. 😊

Teen Fashion and Self Image

By Samantha Prill

How did you get the idea to wear the clothes you wore today? Was your influence from TV? Internet? Well I'm going to discuss the importance of the media and how it affects fashion. Fashion automatically creates cliques. Teenagers cling to those cliques according to their taste. Pop culture is a major influence on teen fashion especially. When you see a famous person on TV or online, you may think you need to buy that outfit to 'fit in'. I also think your weight is a big problem with fashion. When you see a dress in a magazine, you see it on a model that is very skinny with glowing skin and is very pretty so you may feel you should look and be just like her because she looks confident and comfortable rather than what you feel. Nobody wants to be known as the girl with the great personality but unattractive. Girls aren't the only ones that think about their weight and what they wear each day; boys too. When a guy looks at a Men's Health or a sports magazine, they are good looking guys that are basically perfect all around and want to be just like them guys. Who influences you to dress the way to do everyday?

Start of a new semester

By Danny Roenz

It's January and you what that that means. Finals are just around the corner and a new semester will be rolling in. The new semester starts January 21st. There are a few things you can do to prepare yourself for the end of the first semester and the start of the second semester. Make sure you start studying for your finals. Don't put it off until

the night before the test. Make sure you have all your work in for your classes because grades will be going in soon. With the new semester starting, your schedule could be changing. Make sure you know what those changes are and be prepared for your new classes. First semester went by fast and there is only one more left this year. For seniors that mean that you will be going to college very soon and need to start making decisions. Make sure you know what college you are going to and get in all your housing applications. Let's make this next semester a great one.

Snowmobiling to School

By Taylor Remington

Vroom, Vroom!!! All that's left behind is the smoke remnants of the snowmobilers of LWHS, and off to school they go! Have you heard of your fellow classmates snowmobiling experiences to school? Well the *Wolftalk* caught word of some of these riders, and decided to see what they thought about their daily drive. This is what the three of them had to say...

How long have you been snowmobiling to school?

Dalton- 1st year.

Alec- This year.

Nicole- Last two years.

Do you usually snowmobile to school?

Dalton- Yes, when trails are open.

Alec- When the trails are open.

Nicole- When I don't have early Basketball practice, because otherwise I have too much stuff to carry. Also, if the trails are open.

Do you snowmobile to school with a group or friends?- if not do you wish you did?

Dalton- No, I don't mind.

Alec- Nope (Lone Wolf), not really.

Nicole- I don't, I don't wish to because I'm usually running late for school.

Do you like snowmobiling to school?- Would you rather be driven or drive a car?

Dalton- Yeah, but I'd rather drive a car.

Alec- Yeah, and snowmobiling is more fun.

Nicole- Yes, and I'd rather drive a snowmobile because it's faster, and more fun, and you don't have to worry about parking or cops! ☺

Without snow or a snowmobile, what other means of transportation do you use to get to school?

Dalton- My dad drives me.

Alec- My helicopter... p.s. Alec is a cool cat.

Nicole- Pawn rides, or ride the bus.

This Is It...Don't Get Scared

Opinion Piece

By Lanna Draska

Where have all these years gone? It seems like just yesterday we were getting on the kindergarten bus. And now? We are going to be wearing our cap and gowns and receiving a diploma on graduation. We have been waiting for this year for a very long time. But the question is...are we ready? It's scary thinking about where we will be next year. Meeting all new people and trying to make many new friends while keeping in touch with the old ones. What can we do? We can not take each other for granted and get along with everyone. Being kind and friendly with those who need some extra loving will make all the difference. We shouldn't waste our time fighting and holding grudges because before we know it, we will be on our ways beginning a life long journey as adults.

Finals Finals Finals

By Haily Porter

That's right there here again. Finals are something us students dread about each semester. Most teachers give a written final, while others give projects for finals. No matter what way you are given a final they are very important. Finals help to determine your grade. So start asking teachers what you should be focusing on for studying. Studying is a key part of acing that final. Take a look thru your folders and notebooks at your homework and notes. No matter how you study, remember it can help. Remember to pick up the schedule for the finals in the main office.

1. Study
2. Eat a good breakfast
3. Study
4. Get a good night sleep
5. Prepare in advance
6. Know the schedule for finals. It is different from our daily schedule. Classes run for 70 minutes each.
7. Don't be late. If you're late you won't be able to enter the class.
8. Know the rules for finals.
9. Study
10. Ask if you have questions

Olivia Stevens- "Stay away from seniors during finals they are crabby."

Effort Is Everything!

Girls Basketball

By Aimee Drath

The girl's basketball is now two and one in conference. Their wins came against Pacelli and Iola and

they suffered a tough loss against Shiocton. The girls came to play against Shiocton, but their effort was not there that night. They played tough, but the refing was not in their favor. The game was very exciting, going into triple overtime. The girls played hard the whole game, but ended up losing by two making the score 45-47. It was a tough loss for the team, but they kept their heads up as they traveled to Almond on December 28 and 29 for a holiday tournament. The Wolves went up against the Stratford Tigers. Both teams came to play and wanted the win. It was a long game and in the last few seconds the Wolves gave more effort. They ended up defeating the Tigers 42-41. The Wolves were going to the championship against the Almond Eagles. It was a tough game, the Wolves effort was not

there that day. They ended up losing to the Eagles and receiving second for the tournament. The Wolves played the Amherst Falcons on Friday, December 7. They showed up already defeated by the Falcons. The Wolves attitude, confidence, and effort were not there. Amherst won by a landslide, 45-17. The Wolves are looking for a win against the Weyauwega-Fremont Indians on Tuesday, December 11. When it comes to winning effort

really is everything. Good Luck with the rest of the season Wolves!!!

Take it to the Rim

Boys Basketball

By Danny Roenz

The Manawa basketball season is in full swing. It has been a tough year so far for the Wolves. They have suffered some tough losses due to a lack of experience. They hoped to change they fortune going into the holiday tournament held at Almond-Bancroft High School. The first ame they were matched up against Princeton. Princeton was able to contain the Wolves with a good high pressure defense. They held Manawa to 31 points. The Wolves lost 49-31. The next day the Wolves headed back to Almond to face off against Wisconsin Valley Lutheran. The Wolves were able to start off quick and jump out to an early lead. Both teams played good defense and it turned out to be a low scoring game. Due to a lot of missed free throws at the end of the game Valley Lutheran was able to keep it close. The Wolves were able to hold them off to get their first win of the year 28-24. The first game after break was against conference leader Amherst. Manawa stayed with them for the first quarter but in the end they couldn't hold off the Falcons. Manawa lost 59-26.

Swishin' Sachtjen

Featured Athlete

By Nicole Pamperin

She is a basketball player that just happens to be a girl named Jordyn Sachtjen. Jordyn is one of those girls that you never want to leave your side. She is creative, funny, and a great person. This beautiful basketball player is comfortable in her skin no matter if she's jamming out with Mr. Isham or hanging out with her friends. To get to know Jordyn a little better the Wolf Talk decided to ask her a couple questions.

WT: "Do you have a pre-game ritual? If so, what...?"

JS: "yes, we all gather together, in a circle and point our finger to the sky and, yell believe."

WT: "Are you in other sports? If so, what's your favorite?"

JS: "yup, softball but, basketball is the pop to my tart. 😊"

WT: "What is your most memorable moment?"

JS: "When Coach Hanson gave us the speech... "You aren't just girls that happen to play basketball. You are basketball players that just happen to be girls." 😊"

WT: "What drill do you dread the most in practice?"

JS: "Definitely 'Knockout'"

WT: "What do you do in your spare time?"

JS: "I read, write, be featured athlete, and watch the Milwaukee Bucks from time to time. 😊"

WT: "Do you have a job? If so, where...?"

JS: "I'm a worker for my aunt. She is in a wheel chair, so I do what I can for her. It doesn't sound like a legit

job, but it is. Haha":P

WT: "What is your pump-up song/songs?"

JS: "All I Do Is Win" or 'Ice Ice Baby' by Mr. Isham :D

So, if you see Jordyn in the hallway say hi or maybe start a conversation up with her.

Grappling Grapplers Wrestling

By Kayla Johnson

On Saturday, January 8th the Manawa Wolves Wrestling Team travelled to Wittenberg-Birnamwood for the Charger Invite. "We are low in numbers of wrestlers but, the ones we do have work hard and it will pay for itself in the long run," Mr.

Peterson stated. The Wolves had three wrestlers participate in the invite this past weekend. Garret Griffin wrestled at 130 and went 3-1 taking 5th place. Garret had a bye his first round, lost his second match by decision to Braxton Potrykus, received another bye, pinned Jeremiah Walters, and pinned Blake Bostwick. Casey Johnson wrestled at 160 and went 2-2 taking 6th place. Casey received a bye his first round, lost his second match getting pinned, won his next match by decision, won again with a major decision, lost his last match to Erik Johnson. Raythan Mann wrestled at 189 and went 1-2. Raythan received a bye his first round, lost his second match to Jake Reiter, won pinning Tyler Michel, and then lost to Trent Bryant.

Lookin' For Love

Bachelorette

By Lindsay Kowaleski

Have you seen a cute, short, blonde walking the halls? This is none other than senior Katie Gauthier. She moved here this summer, and now that she has gotten used to her life in Manawa, she's looking for a date. If you want to know more about how to ask her out, here are a few of her favorite things.

Favorite color? Green ☺

Favorite food? Chicken

Favorite movie? Action movies, NO horror movies....especially with clowns. An occasional comedy.

What do you like to do in your free time? Volunteering, getting with family and friends.

What are your hobbies? Cheerleading, video games, and movies.

What do you look for in a guy? Fun but serious, not lazy, taller than me (not that it's a problem), athletic.

What qualities would be a turn-off? Disrespect, someone who doesn't clean up well.

What would your dream guy look like? Tall, dark, and handsome. ☺ I don't have a "dream" guy, that's fairytale stuff.

What would be your ideal first date? Anything fun or something calm like the movies.

How should he ask you out? In a cute way, NOT through text, another person, or Facebook.

If you could date anyone, who would it be? Chris "Drama" Pfaff! ☺ I like country boys more than city boys.

If you think you sound like a good match for Katie, don't be afraid to go right up and ask her out. She

would love to go to the movies with you or just play some videogames. Go and start a conversation with her. You could become her dream guy!

Double Trouble Best Friends

By Lukiesha Benhamadi

Whether it is tying scarves around their head and tying their hair in the most ridiculously high pony and walking around school like that or just Skype-ing each other back and forth, these two girls show true friendship. Seniors, Alycia Christensen and Brittany Pethke, are Wolftalk's best friends of the month. These girls are always together and always sharing a laugh from just being all around goofy and not caring what others think around them. Wolftalk asked these two friends questions about their relationship and show the meaning of friendship in their responses.

When did you guys start becoming friends?

Alycia C: We've been friends since Elementary School and became best friends since the middle of our junior

year.

Brittany P: Friends since Elementary School and best friends during the middle of our junior year.

What is your favorite memory?

Alycia C: In 6th grade sneaking out of study hall with Sam A. and going into the girl's locker room and hanging out and toilet papering Brit, and playing keep it up with a volleyball and hiding from the teachers and laughing really hard and getting scared from the 'haunted locker'.

Brittany P: When I was in the stall going to the bathroom and Alycia was in the stall beside me and she thought it was so funny to say 'hi' to me. So she sticks her head underneath my stall and screams, "Hi Brittany!" while I was going to the bathroom. HAHA she kept looking at me, it was so funny.

Have you ever been in a fight at all?

Alycia C: No, not really.

Brittany P: Yeah! All the time. Just kidding, not really.

What do you normally do when hanging out?

Alycia C: Talk about our guy problems, Skype with friends, drive around and more... ☺

Brittany P: Hangout at her house, go to Wal-Mart, go to Subway, drive around, Skype, and more. ☺

What do you like about her?

Alycia C: That I can count on her no matter what, she won't judge me. She gives me advice and she is always there.

Brittany P: She's fun to be around and is there for me always.

What don't you like?

Alycia C: Nothing, I like everything about her.

Brittany P: Her sarcasm that she uses all the time, otherwise I like everything.

What is something you know about her that no one else does?

Alycia C: That we are exactly alike.

Brittany P: S-E-C-R-E-T...Duh!

What is the most important thing you can count on her for?

Alycia C: Always being there when I need to talk or need advice even if it's good or bad.

Brittany P: She's always there for me and gives me advice.

As you can see, true friendship is all about the laughs, memories, and just plain being there for each other, just like how Alycia and Brittany show.

The Perfect Pair Couple of the Month

By Lanna Draska

Hanging out, chillin' with friends, roaming the halls... there's not a whole lot that these two cuties don't do together. They are always having a good time and making each other laugh. They have a few classes together and I'm sure if you walk by, they'll be laughing and enjoying each others company. When Wolftalk interviewed them on their relationship, this is what they had to say.

Taylor- hangout and watch movies

WT-f you could change one thing about each other what would it be and why?

Sean- Nothing, I just like the way she is

Taylor- Nothing, because he's perfect just the way he is

WT-How long have you two love birds been dating?

Sean- Around 2 months

Taylor- About 2 months

WT-What was your first date?

Sean- Mary's

Taylor- He took me out to eat at Mary's

WT-Do you have any pet peeves about each other? And if yes, what?

Sean- No
Taylor- Nope

Well there you have it! If you're ever wondering where they are, you can most likely find them watching movies or catching a bite to eat at Mary's restaurant in Appleton.

Melissophobia

Define it

By Ali Dean

There are many phobias that people may or may not have heard of. Some phobias give you a clue on what it is like. Altophobia is the fear of Heights, Alto meaning tall in Spanish. But there are some words that don't give you a clue and you have to totally guess. Melissophobia is the word to

define. When Wolf Talk asked students if they knew what the word meant and here is what they came up with.

Ms. Lulich- Fear of the name Melissa

Kim R.- Fear of mental issues

Ashley R.- Fear of a breathing disorder

Reba- I don't know, I have never heard of the word

Timmy- Like a disease or something in medicine

Lanna- Fear of mice

Danielle F.- Fear of Holidays

Olivia K.- Fear of blonde hair

Lukiesha B.- I think it means nothing

Deb D.- Fear of snow

We had some pretty good guesses but sadly no one had it right. Melissophobia means the Fear of Bees. Better luck next time!

David and Daniel... The Neimuth Bros!

Siblings
By Miranda Moede

David, an athletic freshman and his brother Daniel, an artistic senior, are very different. For both being brothers in high school, you would think they would be a little more alike! But after they answered these questions it shows that the only things they may share are their taste in clothing! As David said, "We tend to use each others clothing without asking each other for it."

What is your favorite thing about your brother?

David- "He's independent."

Daniel- "He's a good listener, when he wants to be."

What is your favorite memory together?

David- "Times in Virginia."

Daniel- "Going sledding when younger."

Something they do that annoys you is...

David- "Being demanding."

Daniel- "He leaves clothes and toothpaste scattered around the bathroom after he showers."

Your favorite place to go together?

David- "Virginia."

Daniel- No response

What is your favorite thing to do together?

David- "Go to Virginia to visit family."

Daniel- "Complain about life in general."

If you had to describe them in 1-2 words what would they be?

David- "Grown-up."

Daniel- "Athletic."

Do you two get along well or argue a lot?

David- "Argue over stupid things and little things."

Daniel- "Argue a lot."

What is your biggest difference in personality?

David- "Everything."

Daniel- "He's a sport person and I am artistic."

Now you know a little more about this pair of brothers you may not have known before. Maybe you found some things you have in common with them and could go shoot some hoops with David or ask to see some of Daniel's masterpieces!

Final Feelings Question and Answer

By Katrina Wilz

FINALS! FINALS! FINALS! That's all you hear now a days. Next week on Wednesday and Thursday we have our first semester finals. For all you sophomores, juniors, and seniors you know what that means. Late nights studying for all your subjects of homework and sitting in class for 70 minutes the next day. For you freshman I would ask the people around you for some advice or read what people had to say. It might help you out!

L. K. - This year I feel pretty good because math and physics are not on the same day!

C. B. - I don't mind finals because I get out of school early but I'm not looking forward to the physics final.

B.L. - I don't like finals at all.

M.B. - I'm not particularly excited for this event.

N.V. - I am disgusted that I have to do them.

R.K. - I absolutely hate them!

A.S. - I would say to the freshman that they should study a lot and be prepared.

T.D. - freshman advice: you should start studying at the beginning of the week and use your time wisely.

A.D. - I don't look forward to taking the 70 minute finals.

The "Cherry on Top" to this Drivers Dreams

Hooty Ride

By Krista Braun

Many people know Dorothy as the girl with the bright and sparkly red shoes. Well we here at Manawa Jr/Sr High know Taylor Remington as the girl with the bright and shiny red car! Recently getting her license she also received a new car from her parents that she takes great pride in. I decided to ask her a few questions about this lipstick red vehicle of hers.

What type of vehicle is it?

A red Chrysler Sebring

How did you manage to score this car?

I desperately needed a car!! I paid for half of it, but I am happy they bought me it!

What is your favorite thing about it?

Basically just that I have my own car to drive around and don't have to car pool around.

What is your least favorite thing about it?

My stereo system...my bass rattles!

What is your favorite memory with it?

Driving around with the sunroof down!

What types of trouble has this Sebring given you?

I struggled how to open gas tank (there was

a lever inside that I did not know about.) The cruise control doesn't work, and my manual lights that a "certain sister" likes to leave on and make my car die!!

Describe it in one word?

Cherry (on top)

What is your dream car?

A silver jeep... (The new ones...the BIG ones!!)

As you can see she has had her ups and her downs with this car but overall is very happy with it. So if you see this cherry red Sebring driving around with the top down, feel free to let out a "honk!"

Sweet Serendipity

Tyler Paige and Megan Luedke.

By Krista Braun

Everyone always just jumps to conclusions and tries to note the obvious in relationships. Well to show many people wrong, this one couple I found is the complete opposite of that, they were anything but obvious. These two people, who have been dating about 2-3 weeks, are Junior Tyler Paige and Freshman Megan Luedke. They are two very shy and quiet individuals and actually they are pretty quiet when you see them around the school, too. Even though they like to keep their relationship to themselves, they could care less what people have to say about it. They love each others company and to hang out. He said one of his favorite things to do with her is go ice fishing! "I think it is really cool that she had fun ice fishing with me." -Tyler. I decided to put two and two together and make a child out of their two pictures; now they are shy/nice people...I hope they stay nice towards me after seeing this picture! ☺

Artsy Athlete

Kali Draeger

By Olivia Levezow

You can see her dribbling up and down the court, this Varsity ball player is quite intimidating, but only to the other team of course or if you randomly stop in the middle of the hallway, otherwise Junior Kali Draeger is a very friendly person. For those of you who may not know her, I decided to interview her, so that you could get a sense of who she really is.

What are some of your hobbies?

"Sleeping, drawing & sports"

What is your favorite:

Food- "Pickles & peanut butter"

Color- "Pink"

Movie- "Without a Paddle"

Animal- "Wolf"

Cartoon- "Bambi...or Little Foot"

Teacher- "Lulich"

What is your favorite part about high school? Least?

"Favorite is sports, and least favorite is getting up early"

Do you have any pet peeves?

"When people just randomly stop in the middle of the hallway, when people chew with their mouth open, or when people ignore me when I'm trying to tell a story and then I feel like an idiot because I end up talking to myself...haha☺"

Do you have any pets?

"Yup, a kitty named Furball"

Describe your perfect day.

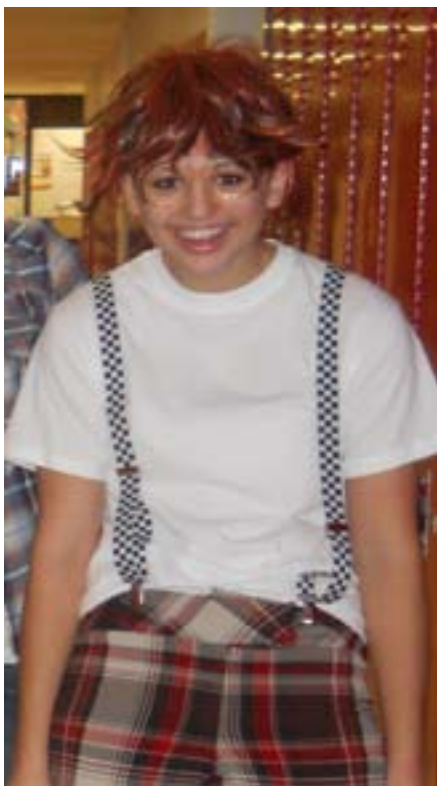

“Warm, it HAS to be sunny, sleep in, stay up late, and hang with friends”

What is something nobody knows about you?

“How am I supposed to say something that people don’t know about me when I don’t know what people don’t know about me?”

Any goals for the future?
